Here are few simple daily procedures that will go a long way in helping you keep our laminates looking good, for years.

A look at how you can look after our Laminates

Do not place frying pan or dishes directly form the oven or cooktop on the laminate surface.

Do not use knives, keys or other sharp objects directly on the decorative surface.

To clean the surface use a sponge or damp cloth and a mild soap or detergent.

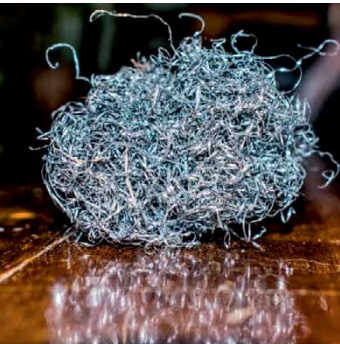

Difficult stains such as coffee or tea can be removed using a mild household cleaner or detergent and a soft bristled brush

Acidic or abrasive cleaners can damage laminate surfaces; please don not use them.

Toilet cleaner or other acidic cleaners contain harsh chemicals that can cause permanent damage.

Steel wool and other abrasive pads can damage Intim Laminates. do not use them for cleaning and do not place steel wool pads on your counter tops

If stain persists, use a paste of baking soda and water and apply with soft bristled brush. Light scrubbing with bout 10-20 strokes should remove most stains.
